

Digital Papers

Soft, snappy, textured, or smooth? Whites or colors? Virgin, recycled, cotton or alternate fibers? Mohawk offers the leading brands of premium printing and packaging papers for copiers, laser/inkjet printers or digital color production. Now available in an easy-to-understand product portfolio.

CRANE'S

- 100% Pure Cotton

MOHAWK COLOR COPY

- 98-bright MCC 98
- 100% Recycled, FSC® certified

MOHAWK EVERYDAY DIGITAL

- Smooth and Vellum Digital with i-Tone®
- FSC® certified

MOHAWK LOOP

- 30%, 50% and 100% pcw options
- Antique Vellum and Linen Digital with i-Tone®
- FSC® certified

MOHAWK OPTIONS

- 100% pcw
- Smooth Digital with i-Tone®
- FSC® certified

MOHAWK RENEWAL HEMP

- 30% Hemp
- Rough and Smooth Digital with i-Tone®
- FSC® certified

MOHAWK SUPERFINE

- Ultra-premium virgin pulps
- Legendary formation and surface
- Eggshell and Smooth Digital with i-Tone®
- 18PT and 24PT folding board options
- FSC® certified

MOHAWK VIA

- Economical writing, text and cover grade
- 30% pcw options
- 25% cotton options
- Parchment finish options
- Felt, Linen, Smooth and Vellum Digital with i-Tone®
- FSC® certified

STRATHMORE

- Wove finish
- FSC® certified

STRATHMORE WRITING

- 24W and 28W
- Pure cotton and 25% cotton
- Laid and Wove finishes
- FSC® certified

See Stock Guide for complete stocking info.

Digital Papers

Digital with i-Tone®

Digital with i-Tone papers have been carefully engineered to deliver superior performance on today's digital color production presses. Mohawk's proprietary i-Tone surface treatment has a unique affinity for both liquid and dry toners. The true benefit of i-Tone is seen in consistent, high-fidelity image quality, greater durability, and better toner adhesion — even on textured surfaces.

Digital Printing Guarantee

Mohawk cut-size papers are guaranteed to run in office copiers, laser and inkjet printers or digital color production presses within the limits determined by the equipment manufacturer. These same papers are perfectly suited for small format and DI presses. Because machine specifications for paper thickness, surface texture and sheet sizes vary widely between equipment brands, Mohawk encourages testing paper on your particular printer before committing to a large program.

The Mohawk digital printing guarantee is limited to replacement cost of the paper only and is void if using paper outside of your manufacturers' recommended paper specifications for weight, size, and finish. All claims are subject to Mohawk Fine Papers, Inc. complaint handling procedures and policies.

Preprinting

Preprinting remains a popular practice for a wide variety of applications. This commonly involved offset printing shells which are subsequently imaged on some type of laser or inkjet device. Any cut-size paper can be ordered in parent folio sheets or rolls. If you plan to preprint rolls (excluding heat-set web), folio or cut-size sheets with offset lithography, Mohawk will extend the printing and imaging guarantee provided you follow standard industry guidelines for this practice, as outlined in Mohawk's preprinting guidelines, found at mohawkconnects.com. Preprinted shells or letterheads which have been printed on a toner-based device (either liquid or dry toner) should not be run through a secondary laser printer or copier. This may cause damage to the secondary printing device.

Digital Papers

Physical Properties

The physical properties for each Digital Fine paper can be found on pages 8 & 9.

CALIPER

Thickness measurement of a single sheet of paper; expressed in thousandth of an inch.

SHEFFIELD

Indicates the level of smoothness. Levels listed are Sheffield units. Lower levels indicate a smoother sheet.

PPI

Abbreviation for pages per inch. Refers to the amount of pages per one inch stack of sheets.

OPACITY

Indicates the level of show through to the reverse side of a printed sheet. Opacity levels listed are for whites and near whites.

BRIGHTNESS

The level of reflectance or brilliance of the paper.
